What the NASW Means by Social Justice

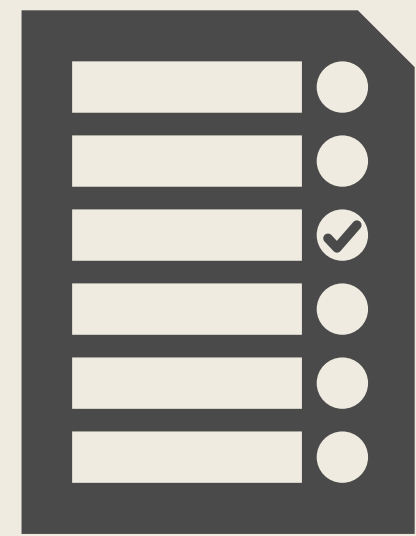

INTERSECTIONALITY

EQUITY

The ethical principle: "Social workers pursue social change, particularly with and on behalf of vulnerable and oppressed individuals and groups of people. Social workers' social change efforts are focused primarily on issues of poverty, unemployment, discrimination, and other forms of social injustice" (National Association of Social Workers [NASW], 2021).

Standard 6.04, Social and Political Action: "Social workers should be aware of the impact of the political arena on practice and should advocate for changes in policy and legislation to improve social conditions to meet basic human needs and promote social justice" (NASW, 2021, 6.04[a]). The standard also names immigration status among the grounds on which social workers should act to prevent discrimination (6.04[d]).
